Experiences

Working Student

Forschungszentrum Jülich

May 2024 – Present

Nuremberg, Germany

- I am building an inventory and privilege manager for experiments being done in HIERN.
- I am implementing backup routines for the database along with Jupyterhub access management, Unit Tests and plotting routines for experiments.
- Technologies Using: MySQL, Python, Jupyterhub, Bash, Pandas and Git

Backend Intern

Wiseyak Inc.

July 2021 – Oct 2021

Kathmandu, Nepal

- Written GraphQL queries to query data for the dashboard and report related to FHIR (Fast Healthcare Interoperability Resources).
 - Written codes to extract and plot graphs based on reports and insights from PDF using pdfplumber.
 - Technologies Used: Python, GraphQL, Clojure, Dgraph and Git
-

Skills

Programming Languages: Python, C/C++, Clojure

Database: MySQL, PostgreSQL, Dgraph

Frameworks: Keras, PyTorch, Pandas, OpenCV, WandB, Streamlit, FastAPI

Data Visualization: Seaborn, Plotly, Dash

MLOps/CICD: GitHub Workflow

Developer Tools: VS Code, Git, Google Colaboratory

Cloud: Heroku

Human Languages: Nepali, English, German, Hindi

Blogging: rabinbk.com.np

Education

FAU Erlangen-Nuremberg

M.Sc. Data Science

Germany

2023 – Present

- Courses: Deep Learning, Mathematics of Learning, Dynamical Systems Theory, etc.

Tribhuvan University

B.Sc. Computer Science and Information Technology

Nepal

2016 – 2020

- Courses: Probability and Statistics, Artificial Intelligence, Neural Networks, Advanced Java Programming etc.
-

Research and Projects

Computer Vision Experiments | Python, PyTorch, OpenCV, Pandas, GitHub Workflow,

- Along with a colleague, I am building a reproducible computer vision experiments package.
- Trying to do projects like Grayscale to RGB conversion, Histogram Equalization and Image Completion using architectures like UNet.

Crypto Data Visualization | Python, Pandas, Dash, Streamlit, GitHub

- Scrape crypto data using Binance API of specified dates
- Perform different visual financial analysis (MA, EMA, WMA, SMA and more)
- Perform currency conversion with the latest and updated value
